

Angel's way

We are on the road of life
Yours the same as mine
We can go this far Baby
Do not hesitate
I'll bring the car and drive
Leave our homes far behind

The sun is going down
And still
Your smiling eyes they light my day
The angel's way
This is the angel's way

Do you hear the ocean roaring
Sounds like we're near to beach
The stormy day is gone now and we
Should get some sleep
You hold my hand, I hold yours
I never felt this way, free, amatory and secure

My future lies in your hands
And I never, want to kiss anyone else
You kiss the angel's way
