

This one

Sun ist rising, eyes are blinded
I get up to see you soon
The day moves slow while I'm just trying
To make the time go through
Go through

Attempt to reach the evening faster
Every day it's much the same
Longing for a kiss or something
To make me less wishfull
Less wishfull

And I can not elide these words
This song goes out for you
So hold me tight, don't blow the lights
My thoughts they walk with you
You know they always do
Long for you...
